Dear Students and Parents,

In providing quality real world curriculum, students will be exposed to activities, equipment and hazardous substances which may involve various degrees of risk.

As part of the teaching and learning process, students may be provided with demonstrations on how to use equipment and carry out activities, may be required to demonstrate their ability to use equipment and carry out activities in a safe manner and may be provided with protective clothing (for example: safety glasses, aprons, etc).

Failure for a student to meet their obligation to behave in a safe manner:

Minor Breach	Major Breach
No potential for serious injury.	Potential for serious or permanent injury to themselves and/or other members of the school community.

Consequences for safety breaches:

Minor Breach	Major Breach

- I am aware that the Department of Education, Training and Employment does not have personal accident insurance cover for students.
- I give consent for my child to participate in all learning activities provided by the school.
